PROFESSIONAL SUMMARY

I am a final-year B.Tech student eager to begin my career in the IT industry. I enjoy learning new technologies, solving problems, and continuously improving my skills. I believe in staying curious, adapting to new challenges, and learning through practical experience. I am looking forward to an opportunity where I can apply my knowledge, contribute to a team, and grow as a professional.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science — **Expected Graduation: 2027**
QIS College of Engineering and Technology, Ongole, Andhra Pradesh — *Overall CGPA: 7.08 (First 3 Years)*

Intermediate (Class XII) — **2021 – 2023**
Sri Chaitanya Junior College, Ongole, Andhra Pradesh — *Percentage: 74.8%*

Secondary School Certificate (Class X) — **2020 – 2021**
Ram Nagar Municipal High School, Ongole, Andhra Pradesh — *Percentage: 99.67%*

TECHNICAL SKILLS

Programming Languages: Java, Python (Fundamental Basic)
Frontend Technologies: HTML5, CSS3, JavaScript
Backend Technologies: Node.js (Basic)
Developer Tools: Git, GitHub, VS Code
Soft Skills: Communication, Team Collaboration, Time Management, Adaptability, Leadership

PROJECTS

Portfolio Website — **Personal Project**
Technologies: HTML5, CSS3, JavaScript

- Developed a personal portfolio website showcasing professional projects, technical skills, and educational background.

Smart Aquaculture Monitoring and Automatic Fish Feeding System — **IoT Project**
Technologies: Arduino UNO R3, Embedded C/C++, pH Sensor, Turbidity Sensor, DS18B20, Load Cell, HX711, Servo Motor, SD Card Module

- Designed a smart aquaculture system to monitor water quality and automate fish-feed dispensing.
- Integrated pH, temperature, and turbidity sensors with an Arduino UNO to monitor water conditions and identify potentially unsafe parameters.
- Proposed a load cell and HX711-based mechanism to measure feed quantity and a servo motor to control dispensing based on preset weight.
- Incorporated the proposed use of an SD card module for recording sensor readings and supporting system monitoring.
- Aimed to reduce manual effort, minimize feed wastage, and support efficient fish-farm management.

INTERNSHIPS

AI-ML Virtual Internship — **April 2026 – June 2026**
AICTE-EduSkills, supported by Google for Developers | 8 weeks | Virtual

- Completed an 8-week virtual internship program in Artificial Intelligence and Machine Learning.

Android Developer Virtual Internship — **April 2025 – June 2025**
AICTE-EduSkills, supported by Google for Developers | 10 weeks | Virtual

- Completed a 10-week virtual internship program in Android application development.

CERTIFICATIONS

- **NPTEL Data Analytics with Python** – IIT Roorkee (12-week course, Jan–Apr 2026, Score: 58%)
- **Frontend Development**
